

COMMUNITY WELLNESS PARTNERS
— Making life about you —

The Lutheran Home Cottages

This institution is an equal opportunity provider and employer.

Community Wellness Partners' Lutheran Home Cottages are designed for individuals living with varying stages of memory loss who could benefit from a long-term, secure environment.

The 14 occupant Lutheran Home Cottages support each resident's need for around-the-clock, compassionate care to help them achieve their highest level of independence. Dually licensed as a Special Needs Assisted Living and an Enhanced Assisted Living Residence, individuals are able to remain in our cottages longer with access to a broad scope of healthcare services to address a variety of memory loss issues.

The cottages offer the ideal combination of support and amenities:

- Brightly colored interior to help residents navigate;
- Safe and secure courtyard in which to enjoy the outdoors;
- Neighborhood-style setting to maximize opportunities to socialize in community lounges, dining rooms and libraries;
- Escorted outings and activities to nurture and celebrate unique skills and talents.

The cottages are well-staffed by experienced professionals trained in memory loss care. Day-to-day support includes providing assistance with medications and medical needs, three meals and nutritious snacks daily and socialization.
